Hi Silvia,

I am reaching out to you in follow up to our conversation on Wednesday about what the core logic should look like on all of the resources and I would like to have a conversation with you about how we should be reporting any program data in the Student resource like Food Service Eligibility, Disabilities, etc. that do not have a start and end date around them. Would you expect that if a student had a disability anytime in a school year that the disability would report the entire year in the resource or would we remove the disability if their IEP ended in the middle of the school year?

Let me know what you think.

Thanks
Jen
