DATASTD-1698 Review

File: Association/GeneralStudentProgramAssociation
  descriptor ReasonExited
    → change *child* to *student*
  domain entity EducationOrganization
    → change *Student* to *student*
  Common ParticipationStatus
    → revert to original since this is going to be deprecated

File: Association/StaffDisciplineIncidentAssociation
  Descriptor DisciplineIncidentParticipationCode
    → remove list (inside parenthesis)

File: Association/StaffEducationOrganizationContactAssociation
  Domain entity EducationOrganization
    → change *educational organization* to *education organization*, change *Staff* to *staff*

File: Association/StaffEducationOrganizationEmploymentAssociation
  Association StaffEducationOrganizationEmploymentAssociation
    → typo, change *organizationn* to *organization*

File: Association/StaffSchoolAssociation
  Domain entity Calendar
    → typo, change *salendar* to *calendar*

File: Association/StudentCTEProgramAssociation
  Association StudentCTEProgramAssociation
    → keep *StudentProgramAssociation* as is (is referring to the element)
  Common CTEProgram
    → revert to original since this is going to be deprecated
  Common Service
    → revert to original since this is going to be deprecated

File: Association/StudentDisciplineIncidentAssociation
 Association StudentDisciplineIncidentAssociation
  → revert to original since this is going to be deprecated

File: Association/StudentEducationOrganizationAssociation
 Association StudentEducationOrganizationAssociation
  → keep *StudentSchoolAssociation* as is
 Descriptor OldEthnicity
  → revert to original since this is going to be deprecated
 Common ProgramParticipation
  → revert to original since this is going to be deprecated

File: Association/StudentEducationOrganizationResponsibilityAssociation
 Association StudentEducationOrganizationResponsibilityAssociation
  → keep *StudentSchoolAssociation* as is

File: Association/StudentMigrantEducationProgramAssociation
 Association StudentMigrantEducationProgramAssociation
  → keep *StudentProgramAssociation* as is

File: Association/StudentSchoolAssociation
 Association StudentSchoolAssociation
  → keep *StudentEducationOrganizationAssociation* as is

File: Association/StudentSchoolFoodServiceProgramAssociation
 Common SchoolFoodServiceProgramService
  → change *Student* to *student*

File: Association/StudentSpecialEducationProgramAssociation
 Association StudentSpecialEducationProgramAssociation
  → keep *StudentProgramAssociation* as is

File: Association/StudentTitleIPartAProgramAssociation
 Association StudentTitleIPartAProgramAssociation
  → keep *StudentProgramAssociation* as is
 Common Service
  → revert to original since this is going to be deprecated

File: DomainEntity/AccountabilityRating

    Domain entity AccountabilityRating

        → change *AccountabilityRating* to *accountability rating* (in the documentation line)

File: DomainEntity/Actual

    Domain Entity Account

        → typo, change *stual* to *actual*

File: DomainEntity/AssessmentItem

    Shared string CorrectResponse

        → revert to original since this is going to be deprecated

File: DomainEntity/Course

    Domain entity LearningObjective

        → revert to original since this is going to be deprecated

File: DomainEntity/CourseTranscript

    Descriptor MethodCreditEarned

        → remove list (in parenthesis)

    Shared string LocalCourseCode

        → revert to original since this is going to be deprecated

File: DomainEntity/DisciplineIncident

    Domain entity Staff

        → revert to original since this is going to be deprecated

File: DomainEntity/GradebookEntry

    Descriptor GradebookEntryType

        → remove list

File: DomainEntity/GraduationPlan

    Descriptor GraduationPlan

        → remove list

    Bool IndividualPlan

        → change *an individual* to *a student*

File: DomainEntity/Intervention
    Descriptor Diagnosis
        → remove list
    Descriptor GradeLevel
        → change *intervention-if omitted,* to *intervention. If omitted,*

File: DomainEntity/InterventionPrescription
    Descriptor diagnosis
        → remove list

File: DomainEntity/LearningObjective
    Domain Entity
        → revert to original since this is going to be deprecated

File: DomainEntity/ObjectiveAssessment
    Domain entity LearningObjective
        → revert to original since this is going to be deprecated

File: DomainEntity/PostSecondaryEvent
    Descriptor PostSecondaryEventCategory
        → remove list

File: DomainEntity/Program
    Descriptor Service
        → revert to original since this is going to be deprecated
    Domain Entity LearningObjective
        → revert to original since this is going to be deprecated

File: DomainEntity/ReportCard
    Shared decimal GPA named GPAGivenGradingPeriod
        → revert to original since this is going to be deprecated
    Shared decimal GPA named GPACumulative
        → revert to original since this is going to be deprecated

File: DomainEntitySchool
    Integer SchoolId
        → keep *EducationOrganizationId* as is (will break if otherwise)

File: DomainEntity/Section
      Descriptor Language
            → change *instruction, if omitted* to *instruction. If omitted*,
      Bool OfficialAttendancePeriod
            → typo, change *slass* to *class*

File: DomainEntity/Session
      Descriptor Term
            → remove list (inside parenthesis)

File: DomainEntity/Staff
      Descriptor OldEthnicity
            → revert to original since this is going to be deprecated

File: DomainEntity/StudentAcademicRecord
      Shared decimal GPA named CumulativeGradePointAverage
            → revert to original since this is going to be deprecated
      Shared string GradeValueQualifier
            → revert to original since this is going to be deprecated
      Shared decimal GPA name SessionGradePointAverage
            → revert to original since this is going to be deprecated

File: DomainEntity/StudentInterventionAttendanceEvent
      Domain entity Intervention
            → change *Intervention* to *intervention*

File: DomainEntity/StudentLearningObjective
      Domain entity StudentLearningObjective
            → revert to original since this is going to be deprecated

File: DomainEntity/StudentSectionAttendanceEvent
      Shared integer AttendanceEventDuration named SectionAttendanceDuration
            → revert *SectionAttendanceDuration* to original. This needs to be one word since
it's renaming a shared integer .
